Islam Shahat Rasly

Computer Science Student | *Community Volunteer* | *Technology for Social Impact*

islam.shahat.net@gmail.com • +20 155 752 3934 • linkedin.com/in/islam-shahat

ABOUT ME

Motivated Computer Science student with a strong passion for learning, community engagement, and creating positive social impact. Through volunteering in student organizations, entrepreneurship initiatives, programming competitions, and environmental innovation projects, I have developed strong teamwork, communication, leadership, and event management skills. I enjoy collaborating with people from diverse backgrounds, adapting to new environments, and contributing to meaningful initiatives. I am passionate about using both technology and creative media as tools for social impact, and I look forward to contributing my technical and content-creation skills to meaningful community projects while learning from diverse cultures and experiences.

VOLUNTEER EXPERIENCE

HR Volunteer | *Student Organization*

- Organized university events and student activities, supporting new students during their transition to university.
- Coordinated workshops and engagement activities with a team of fellow volunteers.
- Strengthened communication, teamwork, leadership, and event-coordination skills through direct interaction with students and organizing committees.

HR Volunteer | *Rally Egypt for Entrepreneurship*

- Supported entrepreneurship events connecting students, startups, and innovators across multiple Egyptian universities.
- Assisted in coordinating entrepreneurship competitions and networking events.
- Developed project coordination, stakeholder communication, and collaborative problem-solving skills in a dynamic, multi-university environment.

Volunteer Organizer & Coach | *ACPC Community*

- Organized programming contests and supported participants throughout competitions.
- Mentored student participants by explaining problem-solving techniques and contest strategies.
- Enhanced mentoring, public speaking, teamwork, and time-management skills while supporting participants under competitive conditions.

Team Member | *Egypt Green Sustainability Initiative*

- Collaborated on developing Safir Smart, a software concept connecting farmers with recycling factories to reduce agricultural waste burning through technology.
- Participated in environmental awareness activities and innovation discussions.
- Strengthened interdisciplinary collaboration, design thinking, and innovation skills by working on a technology-driven environmental solution.

TECHNICAL SKILLS

Languages: Python, C++, JavaScript, HTML, CSS

Concepts: OOP, Data Structures, Algorithms, Networking

Databases: SQL, Database Design

Dev Tools: Git, GitHub, VS Code, Linux (Basics)

VIDEO EDITING & CONTENT CREATION

Software: Adobe Premiere Pro, After Effects, DaVinci Resolve

Specialties: YouTube videos, Reels, podcast editing, motion graphics, color grading, sound design, multi-camera sync, and social-media-focused editing — skills readily applicable to producing outreach and awareness content for community initiatives

SOFTWARE PROJECTS

ATM System | *C++, OOP*

- Console-based ATM simulation implementing core banking operations: deposit, withdrawal, balance inquiry, and account management.

Veranda Café — Front-End Website | *HTML, CSS, JavaScript*

- Fully responsive front-end website featuring a modern UI with menu sections and contact information.
